Sample Tracking Form – Construction/Demolition Materials Disposal

The goal of this plan is to reach a minimum of 70% diversion of construction waste, including demolition and land clearing waste (if applicable). During any building retrofit, addition or alteration, this table should be filled out on a monthly basis by the party responsible for implementing this plan for each project. Other tables will be accepted if they contain the same information as those provided in this form.

Property:		
Project:		
Contractor:		
Time Period Covered in Form: From	To	

Type of Diverted Material	Type of Diversion (include metric tonnes in appropriate column)				Amount of Waste sent to
	Recycled (metric tonnes)	Reused On-Site (metric tonnes)	Reused Off-Site (metric tonnes)	Other (Specify) (metric tonnes)	Landfill (metric tonnes)
